Cost FREE

Registration Please register for this seminar before **Friday, June 24, 2011** by visiting this link:
<http://mtctechtransfer.eventbrite.com>

Audience Transportation planners, traffic engineers, program managers, students and others interested in learning more about Complete Streets, specifically in the Bay Area.

Overview

The seminar will provide an overview of how complete streets can be incorporated into a variety of plans and projects throughout your City/Agency. Based on the new legislation that requires new General Plan Updates to include “Complete Streets”, it is a critical time to begin both planning your Complete Streets network, and implementing projects based on that framework. Agencies have an opportunity for different funding options to help support this sustainable plan. In addition to this detailed update, the seminar will discuss representative projects/procedures from across the state, as well as include feature presentations on projects in the Bay Area. Many have been planned, and some have already been constructed. These featured presentations will include a discussion on how complete streets can be integrated into general plan updates, the ways in which complete streets can be integrated into everyday design, the resources that are available to agencies to assist with the development and implementation of complete streets, and lessons learned to date from the implementation of these projects.

1. ‘Complete Streets’ Overview: Policies & Legislation, Plan Updates, Implementation, Evaluation Methods and Funding

Speakers:

- **Danielle Stanislaus** (Senior Arterial Operations Program Manager, MTC)
- **Sean Co** (Active Transportation Planner, MTC)
- **Rick Dowling** (President, Dowling Associates, Inc.)
- **Beth Thomas** (Community Planning Branch Chief/Pedestrian Coordinator, Caltrans D4)
- **Mike Jones** (Principal, Alta Planning & Design)
- **Representative from the Governor’s Office of Planning and Research**

2. Implementation of Complete Streets in the City of Richmond

Speaker:

- **Chadrick Smalley** (Development Project Manager, Richmond Community Redevelopment Agency)

3. A Complete Streets Approach to Transit Access and Regional Planning

Speakers:

- **Brooke DuBose** (Transportation Planner, Fehr & Peers)
- **Yvetteh Ortiz** (Engineering Manager, City of El Cerrito Public Works)

Please join us for this informative seminar on a topic which is of regional importance.
